

RAGE

Business Office eXchange

SIP – It's the Rage!

ADDRESSING THE NEEDS OF SMALL & MEDIUM
SIZE BUSINESSES WITH COST EFFECTIVE
ADVANCED COMMUNICATIONS SOLUTIONS.

“RAGE! provides the advanced services I needed to grow my business while reducing my telephone costs substantially.”

If your existing telephone system isn't giving you the advanced features you need to be competitive in the marketplace, and is not using new cost effective services, you are losing your competitive edge. RAGE! delivers on features and reliability at a lower cost than found in other more expensive telecommunications solutions. The same software powering many Fortune 500 companies today is available to you at affordable prices.

RAGE! Business Office eXchange is a bundled solution designed from the ground up for effective business communications. The solution includes:

- Dual Core Linux Server with CentOS operating system installed
- SipFoundry sipXecs PBX preinstalled
- Custom configured with your first 5 user's phones, voicemail & user profiles
- Configured with your first trunk Group (SIP)
- Installed on your premise by industry professionals
- Technical Support provided for all components delivered
